Skills USA Arts and AV District Competition
February 15th, 2019
Ben Barber Innovation Academy

-The building will be open at 7am with administration and Mansfield ISD/Ben Barber staff on hand to answer questions and direct people to competition areas. Administration has asked the building be vacated by 5pm. This is NOT a school day for MISD.

-We will have the following competitions on Feb. 15th

- Audio Radio Production	- Television Production	- DCP interviews
- Graphic Design	- 3D Animation	- Animation projects
- TShirt and Pin Design	- Photography	- Photography projects

-Please park in the lot on the north side of the building, designated in green in the photo below. Sponsors and competitors can enter through the glass doors at the back of the school. Those will be the only doors open on the entire campus. A registration desk will be at the entry of the doors.

-Competition start and end times are up to the individual contest chair. Rooms will be available for setup when the building opens.

-All registration questions will be handled by contest chairs and district 4 staff.

-Box lunches will NOT be available during competition. Mansfield ISD employees, including the nutrition department, will be off for a snow day. Please plan food arrangements accordingly. There are dozens of places to get food within 2 miles of the school.

-All sponsors, judges, competitors and guests must wear identification while in the building. Competition badges, school ID's, etc.

-Ben Barber will provide Mac labs for graphic design, animation, photography, audio/radio production competitions, but it is highly suggested for each school to bring their own equipment to ensure students have access to programs/files/logins that are necessary for them to compete. BBIA does have Adobe CC (Audition/garageband, Premiere, Animate, Photoshop, InDesign, etc), however there will be no IT staff members on campus and limited Ben Barber staff members to help with computer issues.

-Conference rooms/classrooms will be available for presentations and interviews. Tables with power outlets will be available for photo projects and animation presentations.

-Guest wifi is available in the building. A password will be provided on competition day.
