

Skills USA District 4 2015 Photography Contest

FIELD ASSIGNMENT 15% of Overall Score, 150 Points

ALL SD CARDS MUST BE FORMATTED AND CLEARED BY PROCTOR

This is a timed exercise. You will have 1 hour to shoot your best examples of the following:

Rule of Thirds

Color

Portrait

Texture

You will have 1 hour to edit and finish this portion of the field assignment.

Return to the classroom and edit the four files using only GLOBAL adjustments, meaning no cloning, healing brush, or other brushes. No pixel manipulation. This is so the judge can evaluate your work on your ability to compose your images and include only elements which you as an artist intend to be inclusive or necessary components of your overall image. Crop your photos to 4x5" 300ppi files.

Save each file as

25_2015_Image1.psd

25_2015_Image2.psd

25_2015_Image3.psd

25_2015_Image4.psd

When you are finished with all four files, paste them onto a letter sized photoshop document on a white background. At the TOP of your document, type your contestant number, file name, and the year 2015 as shown in the example below

EXAMPLE (insert your own contestant number)

25_2015_Field Assignment.psd

Then save as a PSD file, and place the four images AND the "contact sheet" in your contestant folder.

DO NOT COMPRESS YOUR FILE, layers must be visible.
