

# SkillsUSA Texas Leadership & Skills Conference

## April 4-7, 2019 Tentative Contest Schedule

**Download the SkillsUSA Texas State Conference Mobile App after March 15<sup>th</sup>.**  
**Updates are announced at opening session. This document will updated as needed. Please check back for updates.**  
**Red lettering has not been confirmed.**

The contest schedule is a working document. Please check back for updates.

The number of students allowed to compete at the state conference may change. If six or less from all districts are reported then we allow 1<sup>st</sup> and 2<sup>nd</sup> place to advance to the state level. If seven or more are reported we allow 1<sup>st</sup> place to advance. However, many of our Technical Chairs would like to invite more students to participate at the state level and have asked that several places from the district level advance to compete at the state level. These changes are reflected in this document. Technical information test eligibility will follow suit.

You may also download the SkillsUSA Texas app for more information after we enter information on March 15. Please delete any previous versions of the app you may have on your phone. There will be many new features this year and no prior versions will have current information.

There are three demonstration stages inside the American Bank Center where you will find interactive information provided by industries that support the mission of SkillsUSA Texas.

We understand that with the advancement of technology, that some of our competitive events would want to embrace the use of drones to capture video. Some things you need to think about. Most of the video competitions are taking place inside public buildings, in limited space with the public watching. All of this will entail the liability of the individual/school/event coordinator becoming liable if there is an occurrence that would possibly cause damage to property or bodily injury. Since these drones are subject to direction by the user the chance of operator, error would be too great for SkillsUSA and SkillsUSA Texas to permit their use at this time. Most public buildings have strict prohibitions on the use of drones in their buildings. **No hover boards, skate boards, roller skate or blades are permitted at the SkillsUSA Texas conference.**

**The American Bank Center (ABC) owned by the City of Corpus Christi, a Governmental agency, cannot prohibit Concealed or Open Carry within the facility except when the facility is being used by a High School or College for an interscholastic event.** Since Skills USA is an interscholastic competition, no weapons are allowed in the building during the time in which SkillsUSA Texas occupies the building. You will walk through a metal detector to enter the facility and go through a bag check. No blades of any length or type will be allowed-culinary and building trades you can show your contest badge for exemptions.

### *NEW FOR 2019!!!!*

After you complete your test you will check out with the staff inside the rehearsal hall. They will direct you to receive your certificate for the test you completed if your score awards you a medal. Once you have the certificate you will be directed to a photographer who will take your picture with your certificate **and** your medal. You will be able to see your photo on the social wall for the app and again on the screens at closing session. Please be on the lookout so you don't miss your opportunity to be recognized! If you do not follow these steps you will have to wait until after closing session to pick up a medal and you will not have your photograph taken with your certificate. Please see the SkillsUSA Texas Office in the exhibit hall for any questions.
